

Digital Notes...What does Octane use?

Sales Octane uses the *iPencil* in conjunction with the revolutionary app called Notes Plus (available for the iPad).

The innovative features include:

- Use your handwriting in documents
- Folder organization for your notebooks
- Import external PDF's to add personal notes
- Collaborate and share by exporting as a PDF or to Dropbox
- Being more visual by converting hand drawn shapes into crisp images
- Type text directly into documents (even convert your handwriting to text)
- Record audio notes
